

June 2025 Partnership Update

ACS CancerRisk360™

To improve cancer prevention and risk reduction, the American Cancer Society (ACS) developed the ACS CancerRisk360 platform. This interactive online tool provides a comprehensive cancer risk assessment along with personalized recommendations and resources to empower and enable individuals to help reduce their risk of cancer through healthy lifestyles, regular cancer screening, and genetic counseling and testing direction.

Take the ACS CancerRisk360 assessment

Empowered to Quit: Free Tobacco Cessation Program

Empowered to Quit is a free, personalized email-based program designed to help people quit smoking. The program helps users understand when and where they most feel like smoking, how to cope with cravings, and how to set a quit date and stick to it. This program is appropriate to use in conjunction with other cessation resources, like FDA-approved products and other sources of support, including quitlines.

HPV Vaccination Promising Practices Series

The American Cancer Society (ACS) and the ACS National HPV Vaccination Roundtable invite health professionals to learn about the latest evidence-based practices to help improve HPV vaccination among adolescents aged 9-13 nationwide. This opportunity fosters the exchange of successful strategies and practical approaches to improve HPV vaccination rates across health care settings, public health programs, and community-based organizations.

Session 2: Systems Interventions will be held from 2-3 p.m. ET on Wednesday, June 25, 2025.

2025 HPV Vaccination Promising Practices Series

Cancer Prevention with Bold Innovation

The American Cancer Society (ACS) and the ACS National HPV Vaccination Roundtable (HPVVRT) are inviting health professionals to learn about the latest evidence-based practices to improve HPV vaccination among adolescents aged 9-13 nationwide. Join us for this informative quarterly series!

This no-cost educational opportunity is designed to foster the exchange of successful strategies and practical approaches to improve HPV vaccination rates across healthcare settings, public health programs, and community-based organizations. This series will bring together healthcare providers, public health professionals, and community stakeholders to discuss promising practices, address common barriers, and learn from each other's experiences to drive improvements in HPV vaccination.

Save the Dates!

Session 1: Back to the Basics
March 26, 2025
2pm-3pm EST

Session 2: Systems Interventions
June 25, 2025
2pm-3pm EST

Session 3: Provider Interventions
August 27, 2025
2pm-3pm EST

Session 4: Patient Interventions
November 19, 2025
2pm-3pm EST

Register here!

Registration is rolling.
Join us at any time throughout the year!

Participation Benefits

Participants will have an opportunity to:

- Learn evidence-informed interventions from subject-matter experts
- Adopt implementation strategies to close care gaps
- Explore ACS & HPV Roundtable resources

This program is supported by the Centers for Disease Control and Prevention of the U.S. Department of Health and Human Services (HHS) as part of a \$5,000,000 award funded by CDC/HRSA. The contents are those of the author(s) and do not necessarily represent the official views of our sponsor, by CDC/HRSA or the U.S. Government.

ACS CARES™

The ACS CARES (Community Access to Resources, Education, and Support) mobile app provides people with cancer, their families, and caregivers personalized cancer-related information, access to cancer information specialists, and a virtual connection with trained community volunteers. These volunteers may share the same cancer experience and background, including diagnosis, military status, race, or ethnicity. Patients and caregivers can connect directly with volunteers through in-app messaging or in-app phone calling, and schedule future sessions.

ACS LION-ES

The American Cancer Society Leadership in Oncology Navigation Equity Support program (ACS LION-ES) offers free enrollment to the ACS LION™ training and credentialing program to eligible individuals. This initiative underscores our commitment to reducing financial barriers and ensuring equitable access to help empower navigators to deliver essential support to people facing cancer, their caregivers, and families.

By meeting CMS training requirements and aligning with the Oncology Navigation Standards of Professional Practice, the ACS LION-ES program is a pivotal component of our patient navigation strategy.

ACS LION-ES is accepting applications until June 20, 2025.
