Appreciation	8
Gold Sponsors	9-11

This annual OCRA educational conference is a trial format providing multiple local, in-person CEIP opportunities for Ohio oncology data professionals, as well as CE opportunities for virtual attendees.

OCRA sincerely acknowledges the Georgia Tumor Registrars Association (GATRA) for pioneering this CEIP-eligible multi-site format and for generously sharing their knowledge and experience.

<https://www.facebook.com/OCRAWebmaster>

TRAINING THE NEXT GENERATION OF ONCOLOGY DATA SPECIALISTS

The Academy at R.A.M. HCG, Inc. helps newly certified Oncology Data Specialists transition into confident professionals through expert guidance, hands-on training, and real-world experience.

APPRENTICESHIP PROGRAM

✓ EXPERT-LED GUIDANCE

Engage in a structured curriculum while learning directly from subject matter experts who deliver practical insight, individualized guidance, and continuous feedback.

✓ HANDS-ON TRAINING

Develop proficiency in cancer registry abstraction through practical experience and instruction.

✓ STRUCTURED DEVELOPMENT

A tiered learning model helps apprentices build confidence, accuracy, efficiency, and professional expertise over time.

✓ INDUSTRY-FOCUSED LEARNING

Training reinforces regulatory standards, best practices, and the importance of accurate oncology data.

This Apprenticeship is a paid, full-time role within our ODS-C training program and includes the full benefits provided to all full-time employees.

READY TO TURN YOUR CERTIFICATION INTO TRUE EXPERTISE?

Join The Academy at R.A.M. HCG, Inc.'s **Apprenticeship Program** and gain the experience and confidence needed to excel as a Certified Oncology Data Specialist.

Empowering Cancer Registries with Intelligence & Expertise

Co-create Your Path to Breakthrough Results | We Meet You Where You Are

Putting Intelligence and Expertise Into Action

Omega Healthcare delivers intelligent, end-to-end registry solutions that improve data quality, reduce administrative burden, and support proactive registry management.

We bring certified expertise, scalable support, and technology-enabled workflows that help reduce backlogs and strengthen compliance.

We embed AI and innovation with proven expertise - putting intelligence into action - strengthening cancer registry teams to orchestrate the outcomes that matter most.

Our Registry Services

Our unique blend of AI-powered automation, complemented by unparalleled expertise, empowers organizations to remain financially resilient as the industry rapidly evolves.

End-to-End Cancer Registry Management

Case Finding | Abstracting |
Quality Audits | Reporting |
Backlog Reduction

Certified Oncology Data Specialists

Experienced registry professionals
focused on accuracy, timeliness, and
compliance

Flexible Registry Support

Scalable support for
organization-specific, centralized, and
state-mandated registries

Advanced Data Curation

300,000+ annual abstractions with
95%+ accuracy, transforming clinical
data into research-grade datasets.

Data Quality & Compliance

Streamlined workflows that help
improve data integrity and support
timely submissions

Real-World Data (RWD) Curation

Trusted registry data that can
support research, reporting,
and decision-making

Why Omega Healthcare?

AI-driven solutions paired with deep registry expertise | Support for better data quality, fewer backlogs, and stronger compliance | Flexible delivery models that meet organizations where they are | Outcomes-focused support across the full registry workflow

Navigate AI and healthcare complexity with confidence

Follow us on LinkedIn
